A cookie, also known as a browser cookie or web cookie, is usually a small piece of data sent from a website and stored in a user's web browser. They are used by us to help our users navigate the school website and perform certain functions within the web pages. Due to their core role of enhancing or enabling usability or site processes, disabling cookies may prevent users from using certain parts of this website.

How We Use Them

The website uses Google Analytics, a service that generates detailed statistics about the visitors to a website. To gather statistical information, Google Analytics use 'performance cookies'. These cookies collect anonymous information about how visitors use websites, for instance which pages visitors go to most often, whether they have been to the site before and how long they remain on each page. These cookies do not collect personal data. The information these cookies collect is aggregated and therefore anonymous and only used to improve how a website works.

Disabling Cookies

Most browsers allow you to reject all cookies, whilst some browsers allow you to reject just third-party cookies. Blocking all cookies will, however, have a negative impact upon the usability of many websites, including this one.

Links To Other Websites

Our website may occasionally offer links to other websites of interest. However, once you have used these links to leave our site, you should note that we do not have any control over that other website. Therefore, we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites and such sites are not governed by this statement. You should exercise caution and look at the statement applicable to the website in question.
