

CANSFIELD
ACHIEVING EXCELLENCE TOGETHER

Physical Intervention Policy

<u>Approval Date</u>	23 rd September 2021
<u>Policy Review Date</u>	September 2022
<u>Chair of Governors</u>	
<u>Headteacher</u>	

1. Purpose

The purpose of this policy is to make clear the position of the school with regards to necessary physical interventions and to safeguard the wellbeing of students and staff when a situation or incident requires the use of physical intervention.

It is the objective of Cansfield High School to maintain consistent and safe practices in the use of handling, reasonable force and restraint that are both consistent with the law and with the ethos of our school. It is our aim to ensure that any physical intervention is:

- a last resort,
- minimum,
- infrequent, and
- recorded.

2. Physical Intervention and the Law

The law allows all adults who are authorised by the Headteacher to be responsible for students to use such force as is reasonable to prevent a student:

- Committing a criminal offence (or for younger children that which would be an offence).
- Causing personal injury, injury to others or damage to property.
- Engaging in any behaviour prejudicial to maintaining good order and discipline.

Staff should not hesitate to act in these situations provided they follow this policy and the attached guidance. However, physical intervention should always be a last resort and staff should always satisfy themselves that the action they take would be considered justifiable by a wider audience of their professional colleagues.

3. Definition of Terms

- 'Handling' – refers to any physical intervention applied by a member of staff where it is necessary to make physical contact with a student in order to manage their conduct or ensure their own or others safety. Handling strategies may be restrictive or non-restrictive and include shepherding, guiding, supporting, blocking, confining, holding and, in the most extreme cases, restraining.
- 'Use of Reasonable Force' – is the application of appropriate and proportionate force required to achieve the required outcome from the handling strategy employed (see above) without further endangering the student, member of staff or others present at the time of physical intervention.
- 'Restraint' – is the positive application of force in order to actively prevent a child from causing significant injury to him / herself or others or seriously damaging property.
- 'Significant Injury' – would include actual or grievous bodily harm, physical or sexual abuse, risking the lives of, or injury to, themselves or others by wilful or reckless behaviour, and self-poisoning. It must be shown that on any occasion where physical

restraint is used there were strong indicators that if immediate action had not been taken, significant injury would have followed.

4. Implementation of Physical Intervention

The school have invested significantly in training staff in methods to ensure that any physical intervention with students can be conducted in a lawful manner and in a way that is consistent with the school's positive ethos. At least one member of staff in every Faculty, all of the Senior Leadership Team and significant numbers of support staff have had Team Teach training. The Headteacher also leads regular briefing sessions and an annual refresher on positive behaviour management strategies, which include an update on our Physical Intervention Policy.

- All members of staff working with students at the school are authorised to handle, use reasonable force or restrain students if / when such physical intervention is necessary. No member of staff is required to employ any physical intervention strategy if they are not comfortable or confident to do so effectively. No member of staff should intervene physically if they have reason to believe that to do so would worsen the situation / incident that is taking place.
- In all circumstances where physical intervention is or may become required, members of staff should ensure that adult assistance is requested before intervention, although it is understood that circumstances may lead to the need for intervention prior to the assistance arriving.
- Staff considering handling, use of reasonable force or restraint must provide opportunity for the student to alter their behaviour / actions before employing a physical intervention strategy and should continue to make instructions to the student and details of their intended interventions clear.
- The method of physical intervention employed must use the minimum reasonable force for the minimum length of time (additional guidance regarding what intervention is and is not appropriate is given in Appendix A).

5. Recording Physical Intervention

It is absolutely imperative that all incidents where staff feel that they have used force to modify behaviour or conduct are recorded on Intervention Recording Forms that should be submitted to the Headteacher or, in his absence, the Deputy Headteacher or the Designated Safeguarding Lead. Physical Intervention Recording Forms (green forms) are available in the Appendix to this Policy or from the Headteacher's PA. The Headteacher or senior member of staff acting in his absence will then nominate a colleague to investigate and complete the form as appropriate.

- For the safeguarding of both staff and student, any subsequent investigation of the situation / incident will be undertaken by a member of staff other than the one applying the physical intervention.
- It is the responsibility of the intervening member of staff to complete the record form on the day that the intervention took place.

- The circumstances and nature of the physical intervention will be held on the record of the student involved.
- Where appropriate, the DSL will inform any necessary agencies / authorities of the physical intervention in accordance with DfE and LA guidance.
- The Headteacher will ensure that parents / carers are appropriately informed.

6. Searching Students

On occasions a member of staff may have reasonable grounds to suspect that a student is in possession of an item or items which contravene school regulations and could potentially cause harm to the student or others. Under these circumstances The Education Act 2011 extends the power of staff to search students without their consent. Any prohibited items found in pupils' possession will be confiscated. These items will not be returned to students. We will also confiscate any item which is harmful or detrimental to school discipline. These items will be returned to students after discussion with senior leaders and parents, if appropriate.

Searching and screening pupils is conducted in line with the DfE's latest guidance on searching, screening and confiscation.

Searches will be conducted by two members of staff, at least one of whom will be the same sex as the student.

Cansfield High School does not endorse and will not undertake a physical search of any students' person. Where necessary a student will be asked to remove his / her coat and / or blazer, empty all pockets, open their bags and in some circumstances remove their shoes and socks. Possessions and items of apparel that have been removed may then be searched by the staff present.

If undesirable items are discovered the school will use its power of confiscation to retain the offending item(s). Parents / carers, if not present, will be contacted to explain what has been found and any subsequent sanctions that have been applied. Where appropriate, parents / carers will be invited to retrieve the offending property and asked to ensure that they are not brought to school again.

In the event that illegal items are discovered then the police will be informed immediately.

Appendix A

Guidance for Staff for Handling, Use of Reasonable Force and Restraint

1. Purpose of this document

- To provide for the safety and security of students in need of physical intervention.
- To clarify for staff the steps they are allowed to take if a situation requiring physical intervention arises.
- To enable staff to distinguish between what intervention is and is not acceptable.
- To ensure that staff have read the documentation from the DfE.
- To help ensure that any physical intervention is minimal, infrequent, recorded and that relevant authorities and parents are appropriately informed.

2. The Decision to Employ a Physical Intervention Strategy

- You should be aware that all staff who have responsibility for a student or group of students are authorised to employ physical intervention strategies in the event they are necessary and that the law allows you to intervene in this manner.
- You should however be aware that you have a choice whether or not to intervene physically in any given situation and that you should not do so if you are uncomfortable with the situation or not confident to deal with it effectively.
- You should be aware that in the event that you employ a physical intervention strategy, the parents of the child will be informed of your actions, the record of the intervention will be kept on the student's file and where necessary relevant authorities will be notified of the incident for your own future protection.

3. In what way can you Physically Intervene?

Any application of physical intervention must only use the minimum force for the minimum time. There are a number of ways in which you can physically intervene and you must choose the strategy appropriate to the situation and presenting least risk to yourself, the student and other persons. Appropriate actions include:

- **Shepherding or Guiding;** using body positioning and positive gestures to move a student away from harm. This may include the placing of a hand on the back (between the shoulder blades) and using reasonable force to actively move them from one place to another.
- **Blocking or Interposing;** placing yourself between the student and their objective (e.g exit, another student) thereby preventing the potential injury damage or prejudice to good order. This action should, however, be used with care as it may also lead to a pupil feeling trapped and consequently becoming more agitated.
- **Holding and Leading;** gripping the student appropriately (e.g by the upper arm) to prevent them from injury, damage, etc. In cases of resistance from a student, it may be necessary to employ holding to effectively achieve shepherding and, hence you are actively leading them away.
- **Restraining;** used only in the most extreme cases, restraining may require a significant amount of force in order to prevent significant injury (as described in this

policy). Essentially, restraining is a more extreme version of holding, may require more than one adult and may last significantly longer than other strategies. However, the same care must be taken to restrain a student appropriately.

4. In what ways must you NOT Physically Intervene?

The purpose of physical intervention is essentially to maintain good order and ensure the safety of all individuals, therefore it is never appropriate to employ a physical intervention strategy if you are not in control of your own emotions. Physical interventions must never be employed in anger or frustration. If you find yourself angry or frustrated by the situation at hand you must step back and allow someone else to manage the issue. It is never appropriate to use physical intervention strategies as a punishment. Just as there are a number of acceptable intervention strategies, there are also a number of actions it is completely inappropriate to take. Inappropriate actions include:

- **Hitting or Striking;** while it is entirely possible that in the course of an intervention (eg. breaking up a fight) you may be hit yourself, you must not strike a student.
- **Deliberately inflicting pain;** it is not okay to twist limbs or put pressure on joints (eg. arm up a student's back), pull or hold hair, pinch or hold a student in a pain inducing way (eg. by the ear).
- **Making contact with sexually sensitive areas of the body;** where at all possible contact should be restricted to arms, shoulders and the back as previously described.
- **Restricting breathing;** by holding round the throat or for a prolonged period around the chest. It is also never appropriate to sit on / straddle a student or hold them face down to the floor.

5. Guidance for Managing your Intervention

- Always give a student an opportunity to resolve the situation without use of physical intervention first.
- Always send for assistance from colleagues or another authorised adult; other students should never be involved in physical intervention. You may have to intervene before help arrives, but not managing this entirely on your own is safer for all concerned.
- Be aware of your emotions. Are you comfortable and confident to deal with this scenario without anger? If not – do not intervene.
- Continue to communicate with the student (and witnesses) throughout the incident even if the student does not respond. Be clear about what you are doing and inform the student that the intervention will cease when it is no longer necessary.
- Apply only appropriate strategies and the minimum required force to achieve the required outcome (prevention of injury / harm, student / staff safety, restoration of good order). Release the student once this has been achieved.
- Manage the situation calmly – even if the student responds negatively.
- Complete a 'Physical Intervention Record Form' as soon as possible after the event.

6. Minimising the need for Physical Intervention

In most circumstances Physical Intervention really should be a last resort or an emergency action. Therefore, all staff should:

- endeavour to create a calm environment which will minimise the risk of incidents where the use of physical intervention may be required.
- endeavour to teach pupils how to manage strong emotions and conflict through opportunities for SMSC and wider aspects of the school curriculum;
- quickly seek to deescalate incidents if they do arise;
- only use reasonable force when the risks involved in doing so are outweighed by the risks involved in not using force;
- be aware of risk assessments and positive handling plans for specific individual pupils.

A list of authorised personnel is available from the school but will include all teachers and staff who are contracted by the school.

All staff must read DfE Circular 10/98 (section 550A of the Education Act 1996 the use of force to control or restrain pupils).

Appendix B
Physical Intervention Recording Form (Green Form)

Student Name:

Form Completed by:

Date:

1. Description of the behaviour(s) which led up to the use of physical intervention.

2. What alternative strategies were tried and why they failed to be effective?

3. A description of the technique used, the length of time it was used and the outcome.

4. Who used the physical intervention and who was present?

5. Any injuries that occurred throughout the incident to child / staff / other people.

Intervening Member of Staff Signature:

Date:

To be completed by investigating officer:

6. Debrief notes and comments of the child.

7. Debrief notes of any witnesses and their comments.

8. Debrief notes of the staff members involved and their comments.

9. Date / time parental contact made and any comments.
