

January 2019

Dear Parent /Carer

In the event of heavy snow this winter

If at all possible we will be open and we will aim to remain open despite any snow. Clear pathways will be secured to the entrance and from the main building to Technology, Music, Science and the Dining Room. Students should only use the treated pathways and it is our advice to remain in the building as much as possible throughout the day. The corridors will be made dry throughout the day, but parts may be wet at times, and all should take note of the signs displayed.

If we are unable to open, then we will post arrangements for that day by 8.00 am and by 3.00 pm for the following day(s) - on the school website. We will also use MyED, the school gateway app.

When opened during this period sensible footwear is advised and acceptable and preferably a change of footwear for the building to keep it as safe and dry as possible.

Hopefully, none of these arrangements will be needed this year. Thank you for your continued support.

Yours sincerely

Dr G Baker
